

About Mirantis

Managed Private Cloud Infrastructure

CONTACT US TODAY

Company Overview

Mirantis helps top enterprises build and manage private cloud infrastructure using **OpenStack** and related open source technologies such as **Kubernetes**. To date Mirantis has helped over 200 enterprises build and operate some of the largest **OpenStack** clouds in the world. Its **customers** include iconic brands like AT&T, Comcast, Shenzhen Stock Exchange, eBay, Wells Fargo Bank and Volkswagen.

Our Mission

Our mission is to empower customers to take advantage of open source innovation with no vendor lock-in. Mirantis is the top contributor of open source code to the OpenStack project and follows a build-operate-transfer model to deliver its OpenStack distribution and **cloud management services**.
